

The anti-harmonic intelligent power capacitor is designed for the high harmonic content power grid and the condition that the conventional intelligent capacitor can not operate properly, which can not only meet the reactive compensation ...

Yide YDXS anti-harmonic intelligent compensation + inspection report: Download: 114: Yide YDXF intelligent suppression harmonic + test report: ... Yide YDX series anti-harmonic ...

The application relates to an anti-harmonic intelligent capacitor, it includes the casing, sets up in the condenser of casing inner chamber and set up the exhaust fan in the casing, and the air exit has been seted up on the top of casing, and the exhaust fan sets up in the below of air exit, has seted up the vent of intercommunication inner chamber on a vertical lateral wall of casing.

Intelligent Combined Anti-Harmonic Low Voltage Power Capacitor Compensation Device Three Phase Compensation 480V 7% 50kvar, Find Details and Price about Intelligent Power Capacitor Power Capacitor from Intelligent Combined Anti-Harmonic Low Voltage Power Capacitor Compensation Device Three Phase Compensation 480V 7% 50kvar - HENGYI ELECTRICAL ...

The application discloses an anti-harmonic intelligent power capacitor, which comprises a base; a reactance bin; a capacitor bin; the top cover is arranged on the tops of the reactance cabin and the capacitance cabin; the reactors are connected in series and are detachably mounted in the reactor bin through the quick-release mechanism; the upper fixed table is arranged at the top ...

BAGB /BAFB Series Intelligent LV Shunt Capacitors (Hereinafter referred to as Intelligent Capacitor) are a new generation of intelligent integrated reactive power compensation ...

HY series intelligent combined anti-harmonic low voltage power capacitor is a new integrated module for reactive power compensation. which is applied in 0.4kV low voltage distribution network to save energy, harmonic mitigation ...

The utility model aims to overcome the existing defects, and provides the anti-harmonic intelligent integrated power capacitor which is convenient to assemble and disassemble, high in safety...

The anti-harmonic intelligent power capacitor is aimed at the high harmonic content of the power network, which can not only meet the reactive power compensation and improve the power factor, but also suppress the impact of ...

Intelligent Combined Compensation Device Three Phase Compensation 480V 7% Anti-Harmonic Low Voltage Power Capacitor US\$300.00-700.00 4 Pieces (MOQ)

HZ-82 series anti-harmonic smart capacitor is mainly based on 0-type or Y-type low-voltage power capacitors, using the latest technological achievements such as microelectronics hardware and software technology, micro sensor ...
