The new swap stations allow drivers to have their vehicle battery swapped in just four minutes and 40 seconds- much quicker than charging an electric vehicle.

The only battery compatibility issues I'm aware of are as follows: Very old angle grinders made before the release of the XTR sub-line would not accept XTR batteries. This is a warranty issue and you can have the tool replaced. Belt clips sold with non-xtr tools do not provide enough clearance for XTR batteries.
