

What is a battery collection service?

Our Battery Collection service is free of charge to all businesses and organisations within the UK. Once you have completed our online form, we will organise for battery boxes to be delivered to your business sites, so your staff can deposit household portable batteries (such as AAs and AAAs) for recycling while at work.

Can You Store batteries as a collector?

If you store batteries as a collector, your environmental permit will specify any storage conditions. Sorting batteries is classed as treatment. Sorting batteries is by type; portable, automotive and industrial and/or by chemistry: lead-acid, nickel-cadmium and 'other'.

Who is a battery collector?

A person or business that collects batteries and doesn't sort or treat them need not be an ABTO or ABE but must follow the waste duty of care. If you're an ABTO or ABE and don't have an arrangement in place with a battery compliance scheme (BCS) to treat or recycle batteries, you can only act for them as a battery collector.

What are the regulations relating to waste batteries?

The specific obligations in relation to waste batteries depend on their type, but all require registration with the appropriate environmental regulator via the National Packaging Waste Database.
