

What is a battery cut off switch?

A battery cut off switch allows you to disconnect the battery from the car. Most of these switches are located under the hood, but some are located under the rear seat or in the trunk.

What is a battery cut-off?

This cut-off is designed to happen when the batteries have been discharged too low, to protect the batteries from being irrecoverably damaged. [Learn more about battery maintenance here.](#)

What kind of battery do I need to use a cut-off machine?

Requires a AP 300 S battery (sold separately, use code 589VP). Cordless cut-off machine features 9" (23cm) cutting wheel able to quickly cut up to 70mm. Suitable for cutting tiles, bricks, metal and paving blocks. Emission-free during use, so can be used indoors and outdoors. Integrated water connection and vacuum accessories allow dust control.
