

What are the best solar panel brands?

Find out what owners think of JA Solar, Jinko Solar, Longi, Solaredge and Trina Solar solar pv panels to find the best solar panel brand for you.

What are the best solar panels in the UK?

For homeowners who prioritise solar panel efficiency, REC Group's Alpha Pure-Ris is an appealing option. With an outstanding 22.3% efficiency rate, these are some of the most efficient solar panels in the UK today. These high quality solar panels also have an excellent power output (430W) and they are known for their durability.

How do I choose a solar panel brand?

It's unusual to choose a specific solar panel brand at the outset. Instead you're likely to encounter different brand options as you get quotes from different installers. Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands.

Which solar panels are best for your home?

Higher-efficiency panels can generate more power in a given space, making them ideal for homes with limited roof space. Monocrystalline panels typically offer the highest efficiency rates, often exceeding 20%, while polycrystalline and thin-film panels usually have lower efficiency rates.

What are the cheapest solar panels?

At about £190 per solar panel, Sharp NU-AF solar panels are some of the cheapest solar panels on the market. While they are some of the best solar panels for a lower budget, there are also some disadvantages when it comes to Sharp NU-AF solar panels. For instance, they have a higher performance degradation rate of 0.7% per year.

What is the best solar panel in 2025?

Save up to £915 on your electricity bills with solar energy! The best solar panel in 2025 is SunPower Maxeon 6. The best solar panel in terms of warranty is the Project Solar Evolution Titan 445, offering a lifetime warranty of 99.9 years.
