

Discover high-performance Carbon Steel Lugged Actuated Butterfly Valves for efficient flow control. We use cookies to give you the best experience possible. No personal information is stored. ... Electric, Manual Override, FailSafe (Optional) Battery Backup, 24VDC/AC, 110V/230VAC: Applications: Potable/Waste Water, Cooling Systems, Oil, Gases, Air:

Explore top-notch Actreg Carbon Steel DIN PN40 Valves for unmatched industrial performance. Visit Ball Valve UK for details. ... ASTM A216 WCB Carbon Steel construction, 304 Trim. Seats Material: TFM 1600 PTFE Ball Seats ... Can this valve be supplied as a spring return electric or battery backup? Does this actuated valve come with operation ...

Brand: FLOW+: Pressure: 2000 WOG 1/4"-2", 1500 WOG 3" Material: Carbon Steel: Ports: Full Port: Body: 2-Piece: End Type: Threaded (NPT) Disc/Seat/Ball: RTFE Seat, SS Ball

Carbotite seats and ball valves for high temperatures. Carbotite Seal Ball Valves are ball valves that develop carbon for use in ball seats, and are capable of withstanding a maximum operating temperature of 500°C. Stainless ...

Electrically Actuated Carbon Steel Flanged PN16 Ball Valve with Carbon Steel valve body and powerful electric actuator. Available in sizes 1/2" to 4",

18v Lithium-ion battery pack for the NovoPress ACO203 and ACO203-XL pressing machines, manufactured by Milwaukee. 3.0Ah. ... Carbon Steel Threaded Ball Valves; Stainless Steel Threaded Ball Valves; Flanged Ball Valves; Press Fit Ball Valves; Compression Ball Valves; Wafer Ball Valves;

View our range of electric actuated stainless and carbon steel ball valves. our range of electric actuated steel ball valves includes stainless steel, carbon steel, flanged, 3 way, 3 piece, 2 piece, ...

Discover the ultimate in precision and durability with Elomatic Carbon Steel PN16 Actuated Ball Valves. Engineered for performance! ... ASTM A216 WCB Carbon Steel construction, 304 Trim. Seats Material: TFM 1600 PTFE Ball Seats ... Can this valve be supplied as a spring return electric or battery backup? Does this actuated valve come with ...

Carbon steel gate valves need more than 360 degrees to turn entirely and open or close the valve. In this way, the gate lifts from the flow's path, and the carbon steel gate valve opens. ...

Direct Mount No Brackets Needed Carbon Steel Body WCB - Full Bore DN15-DN100 / 1/2" - 4" Powerful Electric Actuator Many Optional Extras Offered

The valves are available with flanged ends or butt-weld ends, in pressure ratings from ASME class 150 & class 300, in a variety of materials of constructions. Gate valves have a flexible wedge, ...
