

What is the global consumer battery market size?

The global consumer battery market size was valued at USD 22.15 billion in 2021 and is projected to grow from USD 23.76 billion in 2022 to USD 37.07 billion by 2029, exhibiting a CAGR of 6.6% during the forecast period.

How big was the consumer battery market in 2021?

Fortune Business Insights says that the global market size was USD 22.15 billion in 2021 and is projected to reach USD 37.07 billion by 2029. What was the value of the consumer battery market in Asia Pacific in 2021?

What drives the consumer battery market growth?

Furthermore, the demand for battery-powered and cordless devices in household equipment is the primary factor driving the consumer battery market growth. There is a shift to a low-carbon energy system to reduce global greenhouse gas emissions. Renewable technologies have become cost-competitive with fossil fuels due to significant cost reductions.

What is the growth rate of consumer battery market in 2020?

Based on our analysis, the global consumer battery market exhibited a slow growth of 5.3% in 2020 as compared to 2019. Consumer battery powers various consumer products such as laptops, tablets, phones, cameras, and other tools.

What is the global battery market based on end use?

Based on end use, the market is segmented into automobiles, consumer electronics, grid-scale energy storage, telecom, power tools, military & defense, aerospace, and others. The automobile segment has emerged as the largest end use in the global battery industry, capturing over 31.0% of the market share in 2024.

Which region will dominate the consumer battery market?

Asia-Pacific is expected to be a dominant region for the Consumer Battery Market due to the presence of a large battery manufacturing infrastructure in the region. Lithium-ion batteries are rechargeable batteries that use lithium ions to store and release electrical energy.

In the UK, consumer battery sales witness an upswing due to the growing preference for renewable energy and battery-powered consumer electronics. The France ...

BlueQuark's Global Consumer Battery Market report provides a comprehensive view of emerging market trends and developments, market opportunities, market size and ...

India's Dominant Battery Market Share Driven by Booming Demand for Consumer Electronics. ... Competitive Landscape. The India battery industry includes several market players such as ...

Consumer Battery Industry Overview The consumer battery market is fragmented. Some of the major companies (in no particular order) include Panasonic Corporation, VARTA Consumer Batteries GmbH & Co. ...

The Global Consumer Battery market is anticipated to rise at a considerable rate during the forecast period, between 2024 and 2032. In 2023, the market is growing at a steady ...

Consumer Battery Market size is estimated to grow by USD USD 5.12 billion from 2024 to 2028 at a CAGR of 4.46% with the primary and secondary segment.

This report lists the top Europe Consumer Battery companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified ...

Consumer Battery Market Competitive Landscape and Major Players: Analysis of 10-15 leading market players, sales, price, ... Consumer Battery Industry News, Policies & ...

The consumer battery market is poised for significant growth over the forecast period, driven by the increasing demand for portable electronics such as smartphones, tablets, and wearables. ...

Lithium-ion batteries emerged as the largest material segment in the global battery industry, holding a significant market share of over 44.0% in 2024. Lithium-ion batteries are rechargeable batteries commonly used in consumer ...

The 3C Consumer Lithium Battery Market report represents gathered information about a market within an industry or various industries. The 3C Consumer Lithium Battery Market report ...
