

What is customs duty on solar panels?

According to TARIC, customs duty for photosensitive semiconductor devices, including photovoltaic cells whether or not assembled in modules or made up into panels; light-emitting diodes, code 8541409000, is 0%. In the HTS tariff system, the duty for solar cells assembled into modules or made up into panels (code 8541.40.60.15) is also 0%.

Why should you import solar panels from China?

Both the tariffs and the fact that China is the largest producer of solar panels globally make importing them from this country beneficial. As one can see, the duty rates on solar panels imported from China to the EU are very low, and in this case, they're zero.

How to import solar panels?

The main job when it comes to import is to find a manufacturer in China. It is strenuous and often demands careful inspection. You can source solar panels from platforms such as Alibaba and 1688. Moreover, you can leverage sourcing companies to connect with Chinese solar panel manufacturers.

What is the duty on solar panels?

In the HTS tariff system, the duty for solar cells assembled into modules or made up into panels (code 8541.40.60.15) is also 0%. Such an attractive duty makes it profitable to import photovoltaic modules to both the European Union and the United States.

How can a customs broker help with importing solar panels?

Navigating the customs process is a complex but essential part of importing solar panels. Work closely with an experienced customs broker to ensure a smooth customs clearance process. They can help you understand and manage the import duties and taxes applicable in your country.

Should you import solar panels into the European Union?

China is the largest manufacturer of solar panels globally. Customs tariffs for photovoltaic modules from this country are very low. That is why importing them into the European Union may be very beneficial. However, one should keep in mind that such installations must conform to many EU market requirements.

In an official notification, the Central Board of Indirect Taxes and Customs (CBIC) announced that effective December 17 goods imported for solar power generation will no longer be permitted to ...

2 spec homes built and completed in year 1 with solar panels installed and operational. Sold in year 2. I recently purchased one of these homes and was pushed back by the builders CPA that the credit belonged to the builder.

Kits are provided for free-standing or fixed use and include DIY solar panels, fixing or mounting features, charge controller, wiring and cables. All of our solar kit products are certified and ...
