Electric Energy Storage Charging Pile Test System Company

ST-HCAC-GB/UA/EA is a powerful comprehensive tester, mainly used to test the international charging pile AC charging standards. It can fully test the charging function, performance and safety of charging piles between Europe, the ...

The AST-9000 series is a test system for the production line of AC charging piles (machines) in Europe and the United States. AST-9000 series is a national European and American AC charging pile (machine) production line test system.

Dahua Energy Technology Co., Ltd. is committed to the installation and service of new energy charging piles, distributed energy storage power stations, DC charging piles, integrated storage and charging piles and mobile energy ...

With the support of a strong technical team, in just 8 years, PNE have developed distributed containerized charging cabinets, super power charging piles, portable chargers, storage and charging integrated charging cabinets, and won the GB standard and European standard certification (German Rhine CE certification), as well as the core ...

The company specializes in the production of lithium-ion batteries, battery management systems, and electric vehicle charging infrastructure. Their products are widely used in various industries, including electric vehicles, renewable energy storage, and smart grid systems.

This platform is one of the few domestic testing platforms that can automatically test the charging piles for network inspection, project acceptance, and factory testing. The platform has the advantages of automatic testing, low usage threshold, and high integration.

SUITA Electric's bidirectional programmable DC power supplies, regenerative AC power supplies, and ultra-high-precision power analysis wavecorders can meet various needs, and offer professional and reliable testing solutions for both types of charging piles.

SUITA Electric's bidirectional programmable DC power supplies, regenerative AC power supplies, and ultra-high-precision power analysis wavecorders can meet various needs, and offer ...

Our company's main products cover integrated/split/mobile/wall-mounted/column DC charging pile, wall-mounted/column AC charging pile, portable AC charging gun, etc.

New energy electric vehicles will become a rational choice to achieve clean energy alternatives in the
