

External interface of new energy battery cabinet

How do I install the external battery cabinet (EBC)?

To install the External Battery Cabinet (EBC), follow these steps in Chapter 3 of the Installation Manual: 1. Create an installation plan for the EBC. 2. Prepare your site for the EBC. 3. Install and wire the EBC according to the instructions in the manual.

How do I access the battery interface board (bib)?

Access to the Battery Interface Board (BIB), fuse disconnects and terminal blocks are behind the front door. See Figure 1 for cable entry layout. Each Liebert Npower Battery Interface Board Box contains a Battery Interface Board (BIB). All DC systems must have their Battery Interface Boards' controls connected in series.

Where should the Liebert battery interface box be installed?

The Liebert Battery Interface Box should be installed near the DC disconnect. The location should allow access to the box and allow the front door to be opened for service. Access to the Battery Interface Board (BIB), fuse disconnects and terminal blocks are behind the front door. See Figure 1 for cable entry layout.

What safety precautions are required to install the Liebert npower battery interface board box?

Special safety precautions are required for procedures involving handling, installing and maintaining the DC system. Only properly trained and qualified personnel wearing appropriate personal protective equipment should be involved in installing the Liebert Npower Battery Interface Board Box or preparing the system for installation.

UPSBIBR--Separately mounted assembly to interface with a Samsung lithium-ion battery. CONTROL CONNECTION Each Liebert Battery Interface Box contains a Battery Interface Board (BIB). When multiple BIB's are used, DC systems must have their Battery Interface Board controls connected in series. The CAN cables must be two twisted pair.
