

# Greek Energy Storage Exhibition Product Introduction

What is renewable & storage Forum?

This year's 6th Renewable & Storage Forum, an energypress event that stands as the country's largest and most influential conference on renewable energy sources and energy storage, will be staged October 31 and November 1 at the main hall of the Ethniki Asfalistiki insurance company's conference center in Athens (103-105 Syggrou Avenue).

What percentage of Greek electricity consumption is residential?

Historically, residential and commercial-public sector comprise ~70% of total electricity consumption of Greek market. Electricity retail prices were historically consistent in the Greek market until 2021, with minor deviations in end-user prices year over year. upfront prices.

Can a new 9 GW electricity corridor benefit the Greek energy system?

The last part of the survey presents an in depth look in the development of the Greek energy system due to the operation of a new 9 GW electricity corridor to Germany. The study identifies potential benefits that the interconnection can entail for both end-consumers as well as the national economy.

How is Greece promoting decarbonization?

Greece decarbonization efforts are taking place at a higher pace compared to the average EU27 having reduced the total CO2 emissions by 44% in 2020 compared to 2010 vs 21% of the EU average. Greece is enacting extensive reforms within its energy sector to promote decarbonization and encourage the development of competitive markets.

How much does res benefit the Greek economy?

Depending on the level of RES deployment the total benefit for the Greek economy varies from EUR6,2 to EUR17,5 billion. Some or all of the services described herein may not be permissible for KPMG audit clients and their affiliates or related entities.

On April 22nd, the CESC2024 China International Energy Storage Conference, hosted by the Jiangsu Energy Storage Industry Association, opened at the Nanjing International Expo Center. This conference, themed "Empowering Dual Carbon Energizing the Future," consists of a summit forum and multiple sub-forums.

The 2nd Renewable EnergyTech to Take Place on March 13-15, 2025, at the Thessaloniki International Exhibition & Congress Center, Greece - The Major "Green and Smart Energy" ...

Date: June 2- 3, 2021. With the theme "Powering Change", the Australian Energy Storage Conference (AES) 2021 is proud to return to Adelaide in partnership with the Government of South Australia, Adelaide
