

Overview. With after sales service, customer relationships do not end with the conclusion of a transaction, but are maintained for a product's entire duration of use. Unfortunately, solar companies, especially in developing countries, grant after sales service much too little importance. This is fatal, as substantial deficits in after sales service are currently one of the reasons for ...

Solar panels are a significant investment in renewable energy. They are designed to last for decades, providing sustainable and cost-effective power. However, to truly maximise their lifespan and efficiency, regular solar ...
