

Will Laos become the battery of Southeast Asia?

KPL (KPL/VNA) - Laos is making efforts to increase electricity exports to neighbouring countries in Southeast Asia and promoting the development of renewables, with the hope of becoming "the battery of Southeast Asia" in the near future.

How many countries does Laos sell electricity to?

Laos currently sells electricity to six countries, namely Thailand, China, Myanmar, Vietnam, Cambodia and Singapore. In the coming time, Laos will continue with negotiations to increase electricity exports, and at the same time choose to develop energy sources with high efficiency, good quality, low investment and consistency with current trends.

How many power plants are there in Laos?

According to data from the Ministry of Energy and Mines of Laos, the country currently has 94 power plants, including 81 hydroelectric ones, with a total installed capacity of more than 11,600 MW.

Does Laos have a green energy plan?

The Laos government has an investment plan that will aid national development and contribute to a broader green energy revolution in Southeast Asia. High debt levels and the promise of ecological destruction along the Mekong has raised concerns, and may prove prohibitive without careful engagement and regional backing.

Does Laos have a power grid?

To alleviate its debt, Laos has given the joint-venture "Electricity of Laos Transmission Company Ltd.", which the Chinese state-owned China Southern Power Grid Company owns a majority share, a 25-year concession agreement giving it the rights to build and manage its power grid, including electricity exports rights.

What is Lao PDR-Thailand-Malaysia-Singapore Power Integration Project (LTMs)?

The first successful APG project, launched in 2022, is the Lao PDR-Thailand-Malaysia-Singapore Power Integration Project (LTMS-PIP). It has facilitated a 100 megawatts of cross-border power trade from Laos to Singapore via Thailand and Malaysia, with Phase II commencing in September 2024, seeking to double capacity.
