

Household solar power supply and price list

How much do solar panels cost?

The average domestic solar panel system costs £5,000 - £6,000 for a 4kW system ideal for homes with 2-3 bedrooms. This can require between 8 (450W) and 10 (400W) solar panels.

How much will 10 solar panels cost in the UK?

The cost of 10 solar panels in the UK can vary based on several factors, including the type of panels and the brand you choose. Depending on the size of the solar panels, it will cost between £5,000 to £6,000 to install 10 solar panels, not taking into account labour costs.

How much does a 4KW Solar System cost in the UK?

GreenMatch's research has found the average price of a domestic 4kW solar panel system in the UK can range between £5,000 - £6,000 (including installation costs), depending on the type of panels you install, their wattage and the manufacturer.

How much does a solar & battery system cost?

The average cost of a 3kWp solar panel system for a typical property with two or three bedrooms is about £9,000, including installation. This jumps up to around £11,000 if you're adding a 5kWh battery. This is a great time to get a solar & battery system, as there's currently 0% VAT on both panels and batteries.

How much does it cost to clean solar panels?

You can also hire someone to do it professionally, which will usually cost around £10 per panel - so the total cost will depend on how many panels you have. If it snows on your panels, don't brush it off, as this will probably cause them damage. It'll melt on its own. To learn more, read our guide to solar panel cleaning.

How much do solar panels cost for a 4 bedroom house?

We estimate that solar panels for a four bedroom house could cost from around £6,600, assuming ~3,000 kWh of electricity consumption per year. A battery would add a few thousand pounds. What's the cost of solar panels for a three bedroom house?
