

How long will it take for Caracas to complete the land acquisition

How long does a land acquisition process take?

Procedures are generally more challenging for communities than companies. Community procedures generally take years to decades to complete, while land acquisition procedures for companies typically range from one month to five years. Many communities are unable to formalize their land, sometimes after decades of efforts.

How long do company land acquisition procedures last in Uganda?

Seven of the 14 company procedures have a potential life of 50-100 years and four procedures, as well as domestic investors in Uganda, are unlimited (Table 8). The remaining procedures have ambiguous provisions on renewal. Table 8. Duration of Company Land Acquisition Procedures in Law.

How many company land acquisition procedures are there?

In addition, 14 company land acquisition procedures for agricultural, oil palm, forestry, tourism, or general economic purposes were examined in 12 research countries. The relevant laws were reviewed for all company procedures and practice was investigated for 6 procedures (Table 2).

How long does it take to acquire land rights?

Time frames are typically specified only for notice or publication and for environmental licensing requirements. In practice, the time it takes companies to acquire formal land rights generally ranges from a few months up to between two years and five years (Table 7).

Do company land acquisition procedures grant significant land rights?

A few procedures (e.g., Indonesia and India) focus on formalizing community tree and forest rights but were included in this research because they also grant significant land rights. All company land acquisition procedures examined are administered by the government, including the principal procedures for acquiring government and community land.
