

# How much does a Thai energy storage cabinet container cost

How much does a container home cost in Thailand?

If you are doing this in another country then the pricing will be a lot more. For a regular "Bricks and Mortar" home in Thailand the costs will be higher in the range of THB 15,000 - THB 25,000 per square meter WITHOUT any fittings. Container Homes compared to regular built homes in THAILAND do not vary much between them in terms of costs.

How much does a 20 ft container cost?

As a basic "Rough Guide" you should budget around THB 220,000 (USD \$6,500) for a 20 ft container with 1 -2 standard doors and windows plus internal gypsum walls with basic electrics and water pipes and around THB 450,000 for a 40ft Home, this is a fairly good starting point.

How much does it cost to build a house in Thailand?

Most projects are custom made and there are many factors which affect the price. A bare container without anything done will start at around THB 55,000 - 100,000 (USD \$1600 - \$3,000), you then need to rust proof the unit, add flooring, walls, plumbing, electrics and all the other things to turn it onto a home. Things To Consider

How much does a bare container cost?

A bare container without anything done will start at around THB 55,000 - 100,000 (USD \$1600 - \$3,000), you then need to rust proof the unit, add flooring, walls, plumbing, electrics and all the other things to turn it onto a home. Things To Consider When planning a container project there are many areas to consider which will affect the price.
