

Industrial capacitor industry competition analysis

How competitive is the capacitor market?

The market is competitive with the presence of various large-scale manufacturers in the market across the globe. The capacitor market has long-standing established players who have made significant investments. These companies leverage strategic collaborative initiatives to increase their market share and profitability.

What is the expected growth rate of the capacitor market?

Answer: The capacitor market is expected to grow at a CAGR of 5.9% from 2021 to 2027. Q3. What are the major drivers influencing the growth of the capacitor market?

How big is the capacitor market?

The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027. The major drivers for this market are increasing demand for consumer electronics products, growing demand for premium smartphones, and increasing production of electric vehicles.

What is the future of the capacitor market?

Publisher: Lucintel Publication date: Get it in 2 weeks by ordering today. The future of the capacitor market looks promising with opportunities in the computer, telecom, consumer electronics, automotive, and industrial sectors. The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027.

Why is China a major market for capacitors in Asia Pacific?

China is a prominent market in Asia Pacific for capacitor due to the availability of raw materials and strong presence of small-scale capacitor manufacturing companies in the country. Furthermore, increase in usage of capacitor for the automotive and power and utility sectors drives capacitor market growth.

What are the key players in the capacitor market?

Some of the key players from the capacitor market such as KYOCERA Corporation provides ceramic capacitor that has a wide voltage range and low series resistance (ESR). These specifications are well-suited for automotive applications. Thus, rise in sales of electric vehicles is likely to have a positive impact on the market.
