How big is the lead acid battery market in Europe?

The Europe lead acid battery market was valued at USD 15.6 billion in 2023. The industry is propelled by the substantial growth in automobile production and favorable government policies to reinforce the domestic manufacturing capacity. For instance, in 2022, Germany manufactured 3.5 million passenger cars.

Which country has the largest lead acid battery market?

Asia Pacific holds the dominant lead acid battery market share, with China, India, Japan, South Korea, and Australia being the key Asian Pacific market contributors. Some factors driving this region's growth are high automobile production and sales, rapid industrialization, population growth, and the increasing demand for UPS systems.

How is the lead acid battery market segmented?

Based on sales channel, the lead acid battery market is segmented as OEM and aftermarket. The aftermarket sales channel market holds a share of over 75% in 2023, attributed to the broad applicability of aftermarket products in diverse areas like motor vehicles, automobiles, and UPS systems.

Is China a promising market for lead acid battery manufacturers?

China is a significant market for the electric industry, making it a promising market for lead acid battery manufacturers. Robust modernization in China and increasing investments in the power utility and automotive industries are expected to propel growth in the lead acid battery market.

How is the lead acid battery industry growing?

The lead acid battery industry in the United States is estimated to record a CAGR of 5% through 2034. Top factors that are propelling the market growth are: The United States is widely known for its automotive and electronic industries, and it is projected to continue observing high demand for lead acid batteries over the assessment period.

What is the outlook for the lead acid battery market?

FMI's Market Report Highlights Sustainable Opportunities. The lead acid battery market share is estimated to display steady growth throughout the forecast period, expanding at a CAGR of 5.20%. The market value of lead acid battery is expected to expand from US\$62,723.74 million in 2024 to US\$104.13 billion by 2034.
