How many lead acid batteries are there?

Browse 166 lead acid batteries stock photos and images available, or search for car batteries to find more great stock photos and pictures.

What is a lead acid battery?

A lead acid battery is a type of battery made up of plates of lead in a case filled with an electrolyte (dilute sulphuric acid). When this battery discharges, some of the lead from the plates combines with the electrolyte to form lead sulfate (PbSO_4), which builds up on the surface of the plates as crystals (as electrons leave the battery as electricity).

Is lead-acid battery protected by reCAPTCHA?
