

How long does a lithium battery last?

The standard warranty period of lithium batteries is one year. If extended warranty is required, consult the SSD and evaluate the maximum service life of lithium batteries based on the battery model and application environment. Extended warranty can be provided within the service life and needs to be quoted.

When does a lithium battery warranty start?

The product warranty starts from no later than three months after the product arrival or no later than six months after the product shipment. Two parties negotiate to specify the start date based on project conditions. The standard warranty period of lithium batteries is one year.

What happens if a lithium battery fails during the warranty period?

Faulty parts replacement: During the warranty period, if an individual failure is caused by the lithium battery quality problem of Party B, Party B is responsible for delivering qualified parts to the receiving place agreed by both parties within the committed service level agreement (SLA).

How long does a battery warranty last?

This is upgradable to 10 years by an additional 10% of the initial investment. Contact your dealer for more info or submit a dealer support request for the handling of warranty cases. \*except on our batteries: on lead-acid batteries we offer 2 years warranty and 3 years on Lithium.

What is the LitePower warranty?

The standard LitePower warranty only covers purchases made in the UK and Republic of Ireland and use of the battery and charger within this region. If you encounter a problem with your battery or charger within the warranty period, please contact the place of purchase or call us direct to allow us to rectify the problem as soon as possible.

What happens if a lithium battery is damaged?

The lithium battery is damaged, broken, or leaks due to improper operations or incorrect connection. Party A does not recharge the batteries in time and the batteries are stored longer than the storage term, which causes capacity loss or irreversible damage to the batteries.

By offering a lifetime warranty, instead of the warranty ending after a set period, we warranty the battery and its components for the same amount of overall energy used over the battery's life - so a heavy-duty user and a light-duty user get the same amount out of the battery.

For example, Party A uses ESMs together with lithium batteries of other vendors, with lithium batteries of different rated capacity, or old and new batteries are mixed. ? Batteries are stolen. ? The battery warranty period has expired. ? Batteries are damaged because Party A does not store them in accordance with storage
