

Majuro lead acid battery replacement phone

Can lithium batteries just drop in and replace lead batteries?

Lithium batteries cannot just drop in and replace lead batteries can they? Lithium leisure batteries are designed to be a direct replacement for lead batteries. They achieve this by having an inherently closely aligned terminal voltage to that of other lead acid variants of leisure battery including wet, gel and agm types.

How do I get a replacement phone battery?

Please contact us by email or by phone at 1-800-405-2121 and one of our battery experts will be happy to help you. Browse a wide selection of replacement phone batteries for sale at Battery Mart. We have cell phone and cordless telephone batteries from popular brands.

Does lithium outlast lead batteries?

The simple fact that lithium significantly outlast lead batteries result in a reduction of repeat manufacturing and recycling. Hence there is a dramatic reduction in the products carbon footprint. Lithium batteries cannot just drop in and replace lead batteries can they?
