

Are lithium ion battery cases fireproof?

However, just as critical to the success of your lithium ion battery packaging /cases, is that of the interior. As standard, the fireproof battery boxes are supplied with "CirruX" interior padding, which helps to contain any fires within the specific compartment where it occurs.

Why should you choose Zarges lithium battery transportation cases?

Besides this, Zarges lithium battery transportation cases are durable and robust, making them resistant to impact and shock, as well as passing the required drop tests for specific types of transit. This is also in addition to all of the usability benefits inherent in these aluminium cases.

What are lithium ion batteries used for?

Lithium ion batteries are the power source for ever greater numbers of products, with everything from phones and MP3 players, to batteries for industrial equipment and even electrical cars using them due to their efficiency, cost, and performance.
