

What happens if a battery is not repaired?

If repair for the electric vehicle is not possible, the battery or module is sent to a partner for remanufacturing or recycling. The repaired battery will then find its way back to the electric vehicle. Battery maintenance is necessary to extend the service life of an EV's battery pack.

Do EV batteries need to be replaced?

There are several reasons why EV batteries may need replacement, including warranty coverage, newer battery technology, and damage sustained in an accident. However, battery replacement can be expensive and not always possible depending on the EV make and model.

Should you recondition your EV battery?

In conclusion, EV battery reconditioning is an effective way to extend the lifespan of your battery and save money in the long run. It is essential to maintain and repair the battery regularly, keeping the battery charged and discharged, and ensuring that it is topped up gently.

What is EV battery maintenance & repair?

EV battery maintenance and repair is essential to increase the lifespan of the battery. A battery management system (BMS) preserves battery efficiency and life. BMS allows the cells to be gently topped up, preventing the battery from overcharging or discharging.

Can a lithium ion battery be fixed?

Swelling is one of the very first signs that a lithium-ion battery cannot be fixed. This swelling is a sure indication the battery has internal damage, such as too much gas or an overheating of the battery. If your battery is swollen, do not use it or charge it. Trying to repair a battery in this condition can cause it to break or even explode.

How to repair a lithium ion battery?

It depends on the cause (of battery failure). If the battery is not physically damaged, or not moisture infected, and hasn't aged excessively, the lithium-ion battery can be restored using several techniques like slow charging, parallel charging, using a battery repair device et cetera.

shall be limited to replacement, repair or refund using either new or refurbished goods at its discretion (refer to section 7: About Service Products and Parts").
