

Is small battery Co a good company?

Absolutely tremendous customer service. I ordered one battery (hardly their big order of the year!), which the Post Office seemed to have lost. I emailed Small Battery Co. and was amazed that they took the time to phone me to help resolve the problem. I will definitely be using them for future requirements and will be recommending them to others.

Is 'good-batteries' a good company?

I was delighted to find "good-batteries" website - it explains everything clearly: what the company sells, where the company is based, the guarantees the company offers - in short I feel it is a company you can trust. Ordering was easy and trouble free and payment was secure. Despatch was quick, communication was good.

Where can I buy a replacement battery?

The Ford Motor Company's house brand of batteries is available at Ford dealerships as well as places like O'Reilly Auto Parts, allowing folks who want to maintain OEM parts on their vehicles to access replacement batteries almost anywhere. Typically, warranties are also accepted at all of these same facilities.

Does good batteries go amiss?

A thank you Good Batteries does not go amissso THANK YOU for an efficient ordering/delivery service. Poor quality battery, never accepted a full charge from the get-go, max 2-3 hours working time compared to 6+ for original Dell battery. Tolerated as rarely need to use the laptop on battery but annoying.

Are Interstate Batteries reliable?

A reliable replacement battery with an interesting history, Interstates are available in a large number of group sizes and applications. Interstate started out as a company that sold batteries out of the back of one man's pickup in 1952 and expanded to selling 19 million batteries a year.

Are GM batteries worth it?

While they are officially recognized by General Motors as "the only batteries recommended by GM" for their vehicles, they don't offer anything spectacular when it comes to features or options.

Welcome to r/scams. This is an educational subreddit focused on scams. It is our hope to be a wealth of knowledge for people wanting to educate themselves, find support, and discover ways to help a friend or loved one who may be a victim ...

Dear, when you use the battery for the first time, please discharge the new battery to about 20%. (Full battery discharges should be avoided, because this stresses the battery a lot and can even damage it. It's recommended to perform partial discharges to capacity levels of 20~30% and frequent charges, instead of performing a full discharging.

Sold used faulty battery as new. Firstly despite .uk this is not a UK based company so delivery is very long from China. Ordered a new battery. Battery didn't work. Laptop said no battery detected. Left to repair shop who ran diagnostics and confirmed faulty battery. Also confirmed battery was not new. Contacted seller for refund.
