

How much does a solar module cost in Europe?

Search4Solar, a European platform for buying and selling solar panels, inverters, and batteries, received a record-low PV module price this week at EUR0.055 (\$0.058) /W. " This is the first time the EUR0.06/W threshold was surpassed," Leen Van Bellen, business development manager Europe at Search4Solar told pv magazine.

Are solar module prices at the lowest point in Europe?

Surpassing the EUR0.06/W threshold may indicate that solar module prices in the European market have hit their lowest point. " This is the bottom in the EU," Van Bellen said. "The next step could be shipping back the products to China or selling them in Africa."

Are solar module prices a new low?

Solar module prices reached a new low this week, says Leen van Bellen, business development manager Europe for Search4Solar, a European purchasing and selling platform for solar products. He tells pv magazine that prices will remain low in the short term.

How much does a tunnel oxide passivated contact solar module cost?

According to the most recent update from OPIS, tunnel oxide passivated contact (TOPCon) solar module prices ranged from a low of EUR0.080/W to a high of EUR0.120/W last week, with the average price being EUR0.101/W. This content is protected by copyright and may not be reused.

How much does a solar PPA cost in Ireland?

Ireland had the highest average solar PPA price among all European countries profiled, with an average price of €101.85/MWh. Notably, this year's Irish RESS 4 renewables auction was oversubscribed for solar projects, potentially increasing interest for PPA off-takers.

How much does a solar PPA cost in the UK?

In the third quarter of this year, the average solar PPA price in the UK rose by 1.7% to EUR91.12/MWh (€75.77/MWh). Despite this quarter-to-quarter increase, it is worth noting that this figure represents a year-over-year decline of 7.6% and a significant drop from the late 2022 peak of over €83.16/MWh.

Price trend for solar modules by month from January 2024 to January 2025 per category (the prices shown reflect the average offer prices for duty paid goods on the European spot market):

EU's efforts to manufacture more green technologies are being undercut by cheaper rivals

Solar panel prices in free fall. This is due to a significant decrease in residential and commercial installations
