

Where can I use solar street lighting in the UK?

With the largest selection of solar street, car park and general area lighting systems in the UK, we have lighting for all applications. Typical applications include streets, roadways, car parks, general outdoor areas, playgrounds, storage yards, footpaths, multi use games areas (MUGA), BMX pump tracks, horse riding arenas and such like.

What are solar powered street lights?

Easy to install just mechanical fixing no mains powered wires. Dragons Breath Solar powered street lights have been designed to adopt powered illumination using only the sun's energy. These provide us with the ability to design street lights and road lighting are for uses across the UK.

Do you offer solar light accessories?

We understand that not all applications and installations are the same and our customers often have specific needs when it comes to installing a lighting system. On that basis we offer an ever increasing range of optional solar light accessories, hardware and parts to help facilitate many of the lighting products and systems that we offer.

Why should you use a solar powered street light unit?

These are designed to cut the excessive use of mains power that is currently being diluted from the national grid system to power existing sodium street light units. By using one of our solar powered light units, you will help to make existing urban light polluting Sodium Street lighting obsolete and a thing of the past.

What is a DBS solar lamp post powered LED street light?

The DBS solar lamp post powered LED street light can be deployed to any location that has the ability to not be shaded and thus employ energy from the sun, which is environmentally advantageous. Our products use a motion detector in conjunction with a photovoltaic photocell. This assists the luminaries to understand day and night time operations.
