That is the Reolink solar panel, which is equipped with a Type-C charging port. Included: 1x 4.5m Reolink solar panel extension cable (with Type-C interface). The original solar panel comes with a 4 meter long cable, this product comes with an additional 4.5 meter long extension cable. > See more product details

A: A solar panel cable extension is an additional wire that connects your solar panels to your charge controller or battery. You may need one if your solar panels are far from the power system or want to move them for maximum sunlight exposure, which might require extra feet of solar panel extension cables.
