

What is the right price for the battery cabinet guard plate

How many batteries can a batteryguard cabinet hold?

Whether you have a great many batteries or just a few, large or small, the Batteryguard cabinet offers a solution for every situation. We offer compact models that charge 2 to 10 batteries and a spacious double-door safe where you can store up to 20 batteries.

How does the batteryguard cabinet work?

The Batteryguard cabinet is also safe and easy to use for new personnel. It's simple: when you need to charge up your battery, you just open the cabinet and place the battery on the charger. Because the charger cables are fixed in the cabinet, you can be sure that you are always using an original charger for the battery.

How many charging points does a batteryguard L have?

Batteryguard L lithium-ion safe Medium-sized model with 8 or 10 charging points Batteryguard L is our medium-sized battery safe with 8 or 10 charging points, where you can safely charge lithium batteries. Do you rent or repair e-bikes, or use electric delivery bikes?

Is a battery cabinet a safe?

Our battery cabinet is actually a safe with robust hinges and fittings and a solid lock on the doors, ensuring that they stay closed if a battery does catch fire. The Batteryguard safe has been tested and has been proven to be safe. Sorry, your browser doesn't support embedded videos.

How many batteries can a batteryguard safe hold?

We offer compact models that charge 2 to 10 batteries and a spacious double-door safe where you can store up to 20 batteries. Batteryguard is based on a fire-resistant design, so that our safe satisfies the strictest standards and guidelines.

Does batteryguard L contain a battery fire?

If one of your e-bike batteries becomes extremely hot and ignites during charging, Batteryguard L will contain the battery fire within the safe. Would you like to know more about Batteryguard L? To ensure that a battery fire does not spread to your business premises, it is essential that the safe door is always closed.
